

Rose's Journey Scholarship Fund (RJSF)

Hope, Heal, Empower

Rose's Journey Scholars, where are they now?

I started Rose's Journey Scholarship to support nursing scholars like Frank. And I am delighted to know every seed scholarship is a steppingstone for students who have limited options to pursue their nursing education in Uganda. Now completing his Ph.D. in nursing in Finland, his success has everything to do with his commitment and hard work. It is inspiring. So, this year, consider sponsoring a nursing scholar. The seed scholarship is important in getting those who are completely stuck, especially now with the harsh financial

realities, to restart their journey in nursing or midwifery. More than any other time in the world, we need nurses and midwives. So let us invest in those who continue to work hard to ensure healthcare for all.
