HOW THE RJSF HAS IMPACTED MY LIFE

"I am very grateful and blessed to be receiving Rose's Journey scholarship, to me, this scholarship means more than just a sum of money. It will assist me in pursuing my dreams of not only being a Bachelor Nursing Student but currying Rose's journey legacy of doing the same to the community out there.

I'm very thankful to receive this scholarship and thank you for choosing me. This scholarship is directly assisting me in my path, encouraging me to become a compassionate and dedicated bachelor nurse. "This award makes me feel very motivated and accomplished for all the hard work that I've put in and it pushes me to pursue my dream even further."

I aim to use this opportunity to perform further in my education and become a Bachelor nurse as my dream had been. I hope to care for and help my community and make the cycle of Rose's journey to continue in the lives of the disadvantage, long live Rose journey and family sacrifices.
