Nurturing Dreams: My Story with the Rose's Journey Scholarship.

When I found out I got the Rose's Journey Scholarship at Clarke International University, it felt like a ray of sunshine after a cloudy day. This scholarship, named after someone who believed in the power of education, wasn't just about money. It was about hope and opportunity.

With the scholarship taking care of my finances, I dove into my pharmacy diploma with a new energy. Every class and lab session became a chance to do my best. I felt a responsibility to make the most of this chance given to me.

But it wasn't just about classes. The scholarship opened doors to new experiences. I joined clubs; that's to say, the 10,000 Steps February-Bus fundraiser club, went to workshops and helped out in community health projects. These things taught me a lot and helped me grow as a person.

One of the best things about the scholarship was the support system it gave me. I got to meet professionals and mentors who were always there to help and encourage me. Their support kept me going, even when things got tough.

I also want to thank the registry office and the approachable yet respectful staff at Clarke International University. Their assistance and guidance made navigating the scholarship process smoother. It's their dedication that helps students like me pursue our dreams.

Above all, I want to acknowledge the grace of God. Through every step of this journey, His blessings have been evident. I'm grateful for His guidance and provision, knowing that without His grace, none of this would be possible.

As I get ready to graduate, I look back at how far I've come. The Rose's Journey Scholarship wasn't just money; it was a lifeline. It helped me become more confident and ready to make a difference in others' lives through the same currency and loving kindness. Now, as I look ahead, I want to use what I've learned to help others. My journey with this scholarship isn't just about me—it's about the power of kindness and support. With gratitude in my heart, I'm ready to see where life takes me next.
